

≡ Korona Tri-Line ≡

The Korona Tri-Line lighting fixture was originally designed as an above sink linear light fixture, however its versatility also makes it a perfect choice for many applications where extra bright light is needed, such as laundry rooms, garages, closets, etc.

The Korona Tri-line incorporates the same handsome aluminum extrusion housing featured in the Korona line and is offered in a pleasing neutral white (3500K) color temperature. It uses the same 15v DC dimming and control solutions as the rest of our product lines and is available in three standard lengths. Each fixture has 5 feet of premium 18/2 double jacketed wire attached.

Mounting hardware included.

Working Lifetime(Hour):	50000
Body Material:	Aluminum
