

TARA BUTTERFLY PATH LIGHT

ADJUSTABLE LANDSCAPE FIXTURE

Application

The Tara Butterfly Path light is designed to illuminate pathways, sidewalks, or walkways. Ease of installation and durability has become the hallmark of TLD products. The Butterfly Path Light is a practical solution for tastefully lighting elegant landscapes.

Configuration

The light is constructed from copper that will weather to a beautiful soft patina over the years while providing a touch of glamour and elegance to outdoor pathways. The fixture is adjustable in height from 25" to 39". This offers the ability to increase the lit area when needed. Each fixture comes with an 8" ground stake.

Electrical/Wiring

Landscape fixtures are 24VDC constant voltage and come with 12 feet of 16/2 low voltage underground landscape wire attached. Hub connections or parallel wiring is recommended.

LEDs

Fixtures are designed with TLD's select high quality light engine, engineered for efficient thermal management and maximum longevity. Exclusive use of quality LEDs ensures consistent chromaticity for brilliance and long life.

Light Output

The Tara Butterfly light is offered in 3000K warm white. See table below for wattage and lumens measurements.

Power Supplies, Dimmers and Accessories

We offer low voltage outdoor IP67 rated 24VDC regulated power supplies suitable for use with our entire Tara landscape line. We also have dimming options available in both manual and wireless configurations.

Warranty

Fixtures are rated for 50,000 hours at 70% of lamp lumen output and backed with a 3 year limited warranty by TLD, an innovative leader in LED fixtures.
